The Invisible Hand? by van Bavel, Bas (ebook)

Economic historian Bas Van Bavel makes claims in The Invisible Hand? that are antithetical to the beliefs of most readers of this journal and should be given serious consideration. Exploring the emergence and decline of markets over long historical periods, he finds little to support a basic contention of contemporary social theory that links markets with human freedom.

Bas van Bavel (Author of The Invisible Hand?)

Traditionally, both in economics and in economic history, markets and market economies (economies that exchange and allocate most of the land, labour, capital, and output through the market) are associated with modernity, economic growth, and freedom. At first sight, recent economic historical research seems to endorse the link between these elements, even though it pushes the start of this ...
