The Last War

This book builds on the theory that history is cyclical, repeating after four 'turns,' each lasting 20-25 years.

The first turn is the high, a period of relief after a crisis has ended. The second turning is an awakening, when people start to get back to reality after the high.

This was essentially the last battle of the Revolutionary War.

The last shots fired by the British army were fired here. It is ironic that in a war so well known for the battles up and down the eastern seaboard, the first and last battles would be fought on the distant Ohio River, only about 150 miles
