Taylor, examining the causes of World War II. It was first published in 1961 by Hamish Hamilton . Contents

~~The Origins of the Second World War—Wikipedia~~

Controversial for his thesis that Hitler was an opportunist with no thorough plan, The Origins of the Second World War is an extensive exploration of the international politics and foreign policy that lead up to the one of the bloodiest conflicts of the 20th century. Published in 1961, The Origins of the Second World War is a classic of modern history. A.J.P. Taylor's years of research helped change the long-accepted view that Adolf Hitler had wanted and planned in detail for a war.

Exploring the reasons why the Second World War broke out in September 1939 and why a European conflict developed into a war that spanned the globe, The Origins of the Second World War argues that this was not just 'Hitler's War' but one that had its roots and origins in the decline of the old empires of Britain and France and the rise of ambitious new powers in Germany, Italy and Japan who wanted large empires of their own.

~~The Origins of the Second World War—4th Edition---~~

To sum up, A.J.P. Taylor's The Origins of the Second World War is a great work, a memorable and path-breaking work, of enormous importance in providing, at last, a Revisionist history of the causes of 1939. It has also the corollary merit, in passing, of providing important ammunition for Cold War Book revisionism as well.

~~Review of The Origins of the Second World War—Mises---~~

PMH Bell's famous book is a comprehensive study of the period and debates surrounding the European origins of the Second World War. He approaches the subject from three different angles: describing the various explanations that have been offered for the war and the historiographical debates that have arisen from them, analysing the ideological, economic and strategic forces at work in Europe ...

A narrative history, cinematic in scope, of a process that was taking shape in the winter of 1933 as domestic passions around the world colluded to drive governments towards a war few of them wanted and none of them could control. All Against All is the story of the season our world changed from postwar to prewar again. It is a book about the power of bad ideas—exploring why, during a single winter, between November 1932 and April 1933, so much went so wrong.

Origins of the Second World War is a collection of twelve essays, each by a distinguished scholar who focus on a particular aspect of the inter-war period. In all, each is respectful of Taylor's contentions, but all find that Taylor was incomplete or wrong in his analysis.

~~Origins of the Second World War Reconsidered—Martel---~~

Not all of the judgements in A. J. P. Taylor's The Origins of the Second World War, published forty-five years ago, have stood the test of time. Taylor was right about the Western powers: the pusillanimity of the French statesmen, who were defeated in their hearts before a shot had been fired; the hypocrisy of the Americans, with their high-

~~The Origins of the Second World War book by A.J.P. Taylor~~

1948–1953. The Second World War is a history of the period from the end of the First World War to July 1945, written by Winston Churchill. Churchill labelled the "moral of the work" as follows: "In War: Resolution, In Defeat: Defiance, In Victory: Magnanimity, In Peace: Goodwill". Churchill wrote the book, with a team of assistants, using both his own notes and privileged access to official documents while still working as a politician; the text was vetted by the Cabinet Secretary.
