The Peter Principle is a concept in management developed by Laurence J. Peter, which observes that people in a hierarchy tend to rise to their "level of incompetence": employees are promoted based on their success in previous jobs until they reach a level at which they are no longer competent, as skills in one job do not necessarily translate to another.

The idea of the Peter Principle is that "In a Hierarchy Every Employee Tends to Rise to His Level of Incompetence." When people tend to do their job well, they are eligible for promotion and that cycle continues until they are promoted into a role for which they are incompetent to perform the duties.

In the 1969 book, "The Peter Principle," authors Dr. Laurence J. Peter and Raymond Hull wrote that workers in a hierarchical structure get promoted to the level at which they are incompetent and stay at that level for the rest of their careers. Logically, this means that virtually all managers are incompetent.

Back in 1969, Lawrence J. Peter created a cultural phenomenon with his brilliant, outrageous, hilarious, and all-too-true treatise on business and life, *The Peter Principle*—and his words and theories are as true today as they were then. By posing—and answering—the eternal question, “Why do things always go wrong?”
