~~Things That Make Us Smart Summary - eNotes.com~~

external aids: It is things that make us smart. Some assistance comes through cooperative social behavior; some arises through exploitation of the information present in the environment; and some comes through the development of tools of thought – cognitive artifacts – that complement abilities and strengthen mental powers.

~~Norman, Donald, Things that make us smart.~~

Television, Norman posits, could make us smart if it afforded more "self-pacing", and interaction as well as more reflective, less experiential ways of thinking. A more human-centered design would emphasize interfaces that people find "comfortable", that are "appropriate to their needs and the tasks they must perform" and that are compatible with their "fundamental capabilities".

“ Today we serve technology. We need to reverse the machine-centered point of view and turn it into a person-centered point of view. ” (p.

~~Things That Make Us Smart: Implications for Record-Keeping ...~~

It also requires external things, things that help make us smart, like writing things down or using other tools. Well, in some of the new educational movements, we're very concerned about kids who are engrossed by what they're doing--who seem to enjoy what they're doing. But, enjoying what you're doing isn't the same as learning from it.
