We moved the derivatives industry forward with numerous market firsts - the markets ' first electronic swap compression trade, electronic swaptions trade, electronic cleared inflation swap and multi-asset package trade were all executed on Tradeweb, in competition via RFQ.

Tradeweb Rates Derivatives  
Swap is an interest fee that is either paid or charged to you at the end of each trading day. When trading on margin, you receive interest on your long positions, while paying interest on short positions. The net interest difference is known as the carry and traders seeking to profit from this are known as carry traders.

What is Forex Swap? Can I make Money ... - Vantage FX  
Next Monday is a minifig swap day at the Lego Store, and I have plenty of minifigs I'd like to trade. However the time of day that I'm free to go is late morning/early afternoon when I don't expect there to be many other customers in the store to trade with.
