 Chapter 2: Transportation Systems Models 2.6 A freight train and a passenger train share the same rail track. The freight train leaves station A at 8:00 a.m. The train travels at a speed of 30 mph for the first 10 minutes, and then continues to travel at a speed of 40 mph. At 8:35 a.m., the passenger train leaves station A.

Chapter 2 Transportation Systems Models The users of this manual will notice several meaningful improvements to key areas. For example, Green Infrastructure has been incorporated into a newly formed, comprehensive Drainage, Stormwater Management and Hydraulics chapter. Chapters on structures and geotechnical engineering have been clarified and simplified, while new chapters such as Value
