Lethem's patchwriting. For them, the act of writing is literally moving language from one place to another, proclaiming that context is the new content. While pastiche and collage have long been part and parcel of writing, with the rise of the Internet plagiaristic intensity has been raised to extreme levels.

It's Not Plagiarism. In the Digital Age, It's Repurposing. Find helpful customer reviews and review ratings for Uncreative Writing: Managing Language in the Digital Age at Amazon.com. Read honest and unbiased

Digital technologies have been changing the world of publishing in obvious ways and in not-so-obvious ways for the past several decades. Today, texts and other media can be copied, edited, remixed, and globally distributed again and again with relative ease. Kenneth Goldsmith's book, *Uncreative Writing: Managing Language in the Digital Age*, explores a few of the less obvious implications of digital media and asks questions about where the lines between authorship and appropriation should ...
