Topaz | Verifone.com

You are redirected to the Verifone portal. Log in with your username and password for the base station. Go to Configuration > Ethernet. In the Connection Type drop-down menu, select Static. Enter the IPv4 Address, the Subnet Mask, the Gateway, the DNS 1, and the DNS 2. The Connection Speed should remain on Auto. The static IP address must be unique in the network and, if you have more than one base station, unique for each base station.
