Like any biography on such a fascinating man as Tony Hancock, "When The Wind Changed" will not provide any answers to the questions we all have and would dearly love answered. Tony took those with him. At best we can trace the dots and reach our own conclusions. It is a shame that Tony never kept, as one of his colleagues Kenneth Williams did ...

The change in the wind is not some mystical feeling. It is the Spirit moving in our lives. John 3:5-8 illustrates the Spirit like the wind. In fact, the Greek word used for "Spirit" is the same used for wind. When we are in tuned to God's Word, the Spirit will lead us. We will have a change in the winds of our lives.

"Wind of Change" is a power ballad by the West German rock band Scorpions, recorded for their eleventh studio album, *Crazy World*. The song was composed and written by the band's lead singer Klaus Meine and produced by Keith Olsen and the band. The lyrics were composed by Meine following the band's visit to the USSR at the height of perestroika, when the enmity between the communist and capitalist blocs subsided concurrently with the promulgation of large-scale socioeconomic reforms in the USSR.

Wind velocity or speed is measured by a cup anemometer, an instrument with three or four small hollow metal hemispheres set so that they catch the wind and revolve about a vertical rod. An electrical device records the revolutions of the cups and calculates the wind velocity. The word anemometer comes from the Greek word for wind, "anemos."
