Gigabyte Passive Optical Networks (GPON's) are networks which rely on optical cables to deliver information. GPON's are currently the leading form of Passive Optical Networks. GPONS offer up to a 1:64 ratio on a single fiber. As opposed to a standard copper wire in most networks, GPON's are 95% more energy efficient.

Gigabyte Passive Optical Network (GPON)

ZTE Firmware is the official Operating System (OS) of your ZTE Device. The Stock ROM can be used to re-install the Operating System (OS), if in case you are facing any Software related issue, bootloop issue, IMEI issue. The Stock ROM can also be used to upgrade or downgrade the Operating System (OS) on your ZTE Devices.
